

**Sai Pearls of Wisdom,  
Part 35-A**

**MIRACLE OF MIRACLES  
Sept. 19th, 2022**

**Om Sri Sai Ram  
Prasanthi Sandesh**

Om Sri Sai Ram

Welcome to Prasanthi Sandesh, Sai Pearls of Wisdom.

It's very strange as we listen to *Mahimas* or miracles, or *leelas* or divine sport of our Bhagavan. They are incomprehensible, beyond the reach of the mind. They transcend the laws of science. Our logic will not apply. The science fails! That is the level of Bhagavan's divine sport or *leelas* or miracles.

I want to draw your attention to a miracle - really it is a miracle indeed, where He appears in a dream and shows the person, who was a victim at that time - a cancer patient, and shows her Prasanthi Nilayam, where she had never been, and gives her an interview, speaking to her from the balcony. She had never heard of Swami. She had never come to Prasanthi Nilayam. So there was no question of seeing the balcony either because in fact she had never been here. Swami has shown it all in her dream. Also she never knew of Swami in the beginning.

All this is the story, where Swami appears in a dream unexpectedly, and solves the problem by curing the cancer. This is a miracle related to a royal family, to that lady by the name of Balbir Kaur. This happened in the year 1966. She had to undergo an operation because of a malignant cancer. The doctors did not give her the reports straight into her hands. Instead they gave her report to her daughter. Adding to this, Balbir Kaur had a haemorrhage. Then she was advised to go to Bombay. So she moved from Punjab to Bombay, and was admitted to the Tata Memorial Hospital.

Her daughter is the Maharani of Jind. Well, they pleaded with the doctor and got her admitted there. Finding out her condition, the doctor refused to touch the growth of the cancer. But the daughter, the Maharani of Jind, cried before the doctor and so the doctor finally agreed to operate upon her mother. Finally he said that Balbir Kaur is suffering from sarcoma, the severest cancer, and she had to undergo a severe pain. What to do!

Again in the month of August on the 2<sup>nd</sup>, she had to be operated upon. It was the second operation within 3 months! But the story did not end there. The body was full of drainage tubes, electric suction pumps, along with many leaks in the body. It looked as though she was on the edge of death. She required even blood transfusions at that stage. As ill luck would have it, a hole appeared in the ureter. The doctor said a third operation is needed. But she had a bad cough at that time, and the mouth was swollen because of all these drugs and antibiotics.

But look at this now! Before coming to Bombay, her relative gave her a photo of Bhagavan Baba and also the biography of Baba written by Kasturi. And the very portrait of Baba touched the heart of the patient, Balbir Kaur. Well, she was lying down on the table and the X-ray was done and she was waiting for the third operation. Then at 4'o clock on the X-ray table, to their surprise, all the leaks in the body stopped and were no more there!

She was praying to Baba, "Swami! Stop surgery!" The leaks stopped for 24 hours, and so she didn't need any more operations. It was mysterious! But these things had happened – the leaks and all that – because of certain faults. And the tubes were taken out at the time of surgery. See Baba's hand!

She regained her strength and was discharged from the hospital. She was praying, "Swami! Tell me what to do!" This is all while looking at the photo of Swami given to her by a relative, as I told you earlier. Then Swami appeared in her dream and she had that balcony *darshan*. She had never been here and she begged everybody – all of these people – to permit her to reach Puttaparthi. Bhagavan mercifully granted an interview to her and told all things related to her operations. So she regained her health and she settled in Puttaparthi. Many people know her!

So this is a miracle that only shows how Swami appeared in her dream to show them the place where they had never been to earlier. And this miracle is a miracle of miracles, because the cancer was totally cured!

I would also like to bring to your attention another case of Prof. Banerjee. Yes! He has his niece, by the name of Mrs. Chatterjee. This Mrs. Chatterjee was 38 years old and a mother of 7 children. This had happened in the year 1965. Dr. Banerjee started writing letters to a person here, someone by the name of Narayanayya, who had settled in Prasanthi Nilayam. He wrote about 4 letters, about this very interesting miracle.

Mrs. Chatterjee developed left breast cancer. She was examined in Gwalior, later at All India Institute of Medical Sciences, Delhi, and they all confirmed that it is malignant cancer. This is what Prof. Banerjee wrote to Narayanayya on Feb 6<sup>th</sup> 1965 from Gwalior. Dr. Banerjee also mentioned in the letter that this malignant cancer was confirmed by no less a man than Dr. Ramalingaswamy, the Director of All India Institute of Medical Sciences – a *Padma Vibhushan*. It's a severe cancer - carcinoma confirmed!

Then this Narayanayya reported to Swami what had happened, including the details in the letter written to him by Prof. Banerjee.

Swami materialized *vibuthi* and sent it to Banerjee with instructions on how to use it. Yes! This letter from Banerjee was received on 20<sup>th</sup> February. What does that letter say? The *vibuthi* was used!

The first letter told about this cancer and the problem, and its confirmation by All India Institute. After receiving the *vibuthi* Prof. Banerjee wrote a second letter to Narayanayya, telling that the *vibuthi* was applied as per the instructions. There in the letter he also wrote that the lady had developed a high temperature, 106 and even 107. She had a burning sensation, a sinking feeling. By the application of *vibuthi* all the problems were solved! All complaints vanished!

Then Dr. Banerjee wrote a third letter on March 10<sup>th</sup> to Narayanayya, the one who settled in Prasanthi Nilayam. He said there was no complaint like anaemia or shortage of blood, that everything was normal, and that Mrs. Chatterjee was having her diet as usual. So by His Grace, Swami saved this lady.

And in his fourth letter, which is published in '*Sanathana Sarathi*', Dr. Banerjee wrote to Narayanayya that she is fine. However the doctors wanted to do some other operation to confirm, as a precautionary measure, so that there won't be any cancer in the future. But later the doctors dropped that idea and they discharged her. Something magical must have happened! The death the doctors pronounced earlier, what happened to it? Baba's mercy solved the whole problem! These are the details relating to Prof. Banerjee, who occupied a very high position as Head of his Department in Gwalior.

There is a similar story related to another man. Most of us also saw him as he was a lead singer of Bhagavan's bhajans. He used to frequent Prasanthi Nilayam in those days. He is a producer of documentary films for the Maharashtra government. His name was Dixit. His sister suffered from breast cancer on the left side. It was said there was a lump in the body. She was examined in Tata Memorial Hospital, Bombay. They confirmed that it was carcinogenic or cancerous. They fixed the operation for a Tuesday, but immediately realized that Tuesday happened to be a holiday. So the operation would be conducted instead on Wednesday.

This Dixit came to know that Baba would be visiting Anantapur, so he wanted to take His permission. He came there along with his sister. Yes, and they reached Anantapur in the early hours of the morning.

Watching them arriving from a distance, Bhagavan said, "I know, Dixit, the complaint about your sister's breast cancer. I also know that they want to do operation on Tuesday, but they postponed it till Wednesday. Now I am telling you, it will not be done on Wednesday; it will be done on Thursday. Don't worry, I will be there!" And He materialized *vibuthi* to give to his sister and rubbed some portion of that *vibuthi* on the chest of this Dixit. Yes, of Dixit – and on his chest and said, "Now you go!"

They went to Bombay, went to the hospital, and Baba's prediction was true, that the operation had to be done on Thursday. Well, on Wednesday evening what happened? Dixit was sitting by the bedside of his sister. In the evening, from the left nostril of Dixit - please note this point – the left nostril of this Dixit, some colored fluid started coming out of his left nostril. No pain! The fluid was so much that his pyjama was wet and that he had to change his pyjama. Watching this, Dixit's wife was very much puzzled. There is no cold or cough whatsoever, then why this liquid? But because they were preparing for the surgery on Thursday, they forgot what had happened as they were quite busy.

Yes, on Thursday at 9'o clock in the morning, this lady, the sister of Dixit, was taken to the surgery theatre! And the pathologist came out of the theatre and said, "We don't find any lump in the X-ray. It is only watery liquid! We have frozen that. We have sent it for a biopsy."

Well, on Friday, Dixit went to know the results, and doctor said, "All is clear! There is no trace of cancer!"

And the sister's husband, a resident of Delhi, came to see her and saw her recovery. With no hopes in the beginning, now there was no cancer! He immediately rushed to Prasanthi Nilayam, travelling from Delhi to Prasanthi Nilayam!

He had seen Swami giving *darshan* from the balcony. From there, He said, "No worry! I know, it's only water! It's only water! There is no lump, no cancer! Don't worry. Be happy. Your wife will be well!" That is Bhagavan Sri Sathya Sai Baba!

In this brief talk, I mentioned three of the cancer cures which are really miraculous. Bhagavan is mysterious and miraculous!

Sai Ram!
